31st Meeting of the European Society of Paediatric Clinical Research

26-27 May 2023 | Budapest

Invitation

The 31st Annual Meeting of the European Society of Clinical Research is a congress for young pediatricians and clinical researchers mainly from the area of Central Europe (Hungary, Czech Republic, Slovenia, Slovakia, Poland, Croatia, Romania) with the addition of Austria and Germany, where the region also has deeply rooted scientific connections. The tight community of ESPCR dates back to 1991 and since then it raised many generations of pediatricians with a research interest and motivation to deeper understand the scientific background of childhood diseases and to improve the current therapies. Their innovative approach is based on the profound understanding of molecular biological methods tied to wide clinical experience. The lectures represent a broad spectrum of pediatrics subspecialties. The leading senior pediatricians of the region are also present and actively lead discussions and hold insightful plenary lectures about their field of expertise, therefore we can get a look to the future of pediatrics based on firm foundation of the knowledge gathered so far.

We are actively searching for companies to sponsor these efforts and help us to organize this high-scientific niveau congress on 26-27 May 2023 for the upcoming pediatricians of the Central European region and enhance scientific connections among these countries and universities with a long history of scientific traditions.
